Éjfél nyitvatartás a Tudásközpontban

Ellenőrizd könyvtári tartozásaidat a Neptunban!
Az egyetem információs rendszerei előző hétközi napközbenben előfordultak, hogy a Neptun rendszerre olyan könyvtári tartozást jelez, mely körülmény már megengedhető lett volna.
Nyitvatartás hétfő, péntek és szombat napokon.
A Neptun kód és az ahhoz tartozó jelszó megadása után kitölteni az adatellenőrzést a Neptun és a könyvtári Corvina rendszer között, így már csak az aktuális és valós tartozások láthatóak lesznek.
A feltételekkel egyetemesen értek egyet.

Check your library debts in Neptun!
Due to a shutdown affecting the university's IT systems, it may occur that Neptun's system indicates a library debt that has already been settled.
In this case, please visit the [helpdesk page](#).

After entering your Neptun code and the associated password, data synchronization is established between Neptun and the library's Corvina system, so only the list of current and real debts will be visible.
We apologise for any inconvenience!
